

Please note this important information for customs and border clearance.

Since February 2012 Giebelstadt is considered a "special landing field." One- and off- flights to or from EU countries that have not acceded to the Schengen Agreement (NON-SCHENGEN) countries - Russia, for instance - must be logged in as early as possible, at least 24 hours before the flight!

This requires the passport data of passengers and crew. This also applies to entries and exits into and out of the so-called "THIRD COUNTRIES", such as the United States as well as for Norway and Iceland (not EU, but Schengen).

Responsible for flight announcements to Giebelstadt Airfield Operations is the carrier or the pilot!

The formalities for the one- and off- flights from or to **Non-Schengen** or **Non-EU** countries must be strictly followed. The staff of Giebelstadt Airfield will support you.

Thank you for your cooperation!
